

Make Yourself at Home in The Listening Room™

What is The Listening Room for Teens and Adults?

A one-of-a-kind website that provides free interactive listening practice and resources to people with hearing loss. Learning to listen again with a hearing aid or cochlear implant is an exciting journey. The Listening Room gives you a foundation of interactive and uniquely designed practice activities to improve your listening skills so that communicating with others is a successful experience.

How Can I Access The Listening Room?

Visit www.BionicEar.com/ListeningRoom and discover that improving your listening skills with a cochlear implant can be rewarding and fun!

"This is such a great website! I just received my second implant in December and was activated two weeks ago. This site has TONS of useful listening activities!"
— **June Beach**, implanted at age 40, bilaterally implanted at age 52.

Learn about Rehabilitation through the Listening Playbook

Filled with important resources from listening strategies to all kinds of tools for understanding rehabilitation, the Listening Playbook helps you maximize your hearing success.

Work Out in the Listening Gym to Enjoy a New World of Sound

Choose from a variety of activities in the Listening Gym to maximize hearing performance. Refine your ability to discriminate sounds and speech, improve listening skills in challenging environments, practice talking on the phone or appreciating music, and much more.

The Listening Room provides three ways to practice listening, so you can adapt the practice experience to your needs:

- CLIX activities offer exercises you can do on the computer independently or with a listening coach
- Thumbprints' MP4 format allows you to download exercises directly to an iPod® or other MP3 player with video capabilities
- Paper Trails are printable exercises you can do with a listening coach

Developed by Dave Sindrey, M.C.I.Sc., LSLS, Cert AVT®, and Advanced Bionics, The Listening Room provides activities and resources to support the development of listening and spoken language skills for adults and teens with hearing loss.

Visit The Listening Room at:
www.BionicEar.com/ListeningRoom

AB's Bionic Ear Association (BEA) designed The Listening Room to give you all the free activities and resources you need to take you on this incredible and exciting journey into a new world of sound and communication. The BEA is always researching and creating fresh and engaging ways to support teens and adults with hearing loss and to bring families and friends into the learning process.

To learn more about The Listening Room, please contact the BEA at **866.844.HEAR (4327)** or send an email to TheListeningRoom@AdvancedBionics.com.

You can ask questions and get answers about your rehabilitative and learning experiences. The BEA is here to do everything it can to make adapting to a cochlear implant and learning to listen exciting, fun, and fulfilling.

"I can't tell you how excited I am about The Listening Room and all of its potential! What a great idea and tremendous resource for recipients and professionals alike."
—Brandy Storck

Teaching your brain to listen again takes commitment, perseverance, and a positive attitude. AB is here to help you every step of the way. Optimize your hearing performance with the additional support provided by The Listening Room.
